

21 June 2022

The Swedish Corporate Governance Board presents statistics regarding gender balance on the boards of listed companies:

The proportion of women on the boards of listed companies increases

- The proportion of female members elected to the boards of Swedish listed companies has increased by 1.3 percentage points to 36.1 per cent.
- For large companies, the proportion of women is 38.8 per cent, a decrease 0.4 percentage points from last year.
- The proportion of female employee representatives on boards is 26.3 per cent, a decrease of 3.6 percentage points from last year.
- Of newly elected board members, 41.6 per cent are women, an increase from 34.9 per cent last year.

About these statistics

The Corporate Governance Board carries out an assessment of gender balance on the boards of listed companies every year. This year's review presents the gender balance as of 10 June 2022. The previous published statistics presented gender balance as of 10 June 2021. The statistics were produced by Fristedt Consulting AB on behalf of the Corporate Governance Board and are available on the Board's website, www.bolagsstyrning.se.

The Corporate Governance Board's figures only cover Swedish public limited companies whose shares are traded on a Swedish regulated market, (Nasdaq Stockholm and NGM Main Regulated), as it is these companies that must comply with Swedish company law.
